MEMORANDUM FOR THE RECORD

SUBJECT: Phone Call from [REDACTED] RMO/DDS&T

25X1A

Concerning DDS&T microfilm activity the following projects have been established since July 1968.

1. OSP -- Cable Reference File  
It is on 16mm roll film. Started in 1969 and continuing today. 28 cu. ft. filmed and destroyed. 58 cu. ft. will be filmed in 1971 (grows about 50 cu. ft. a year.)
2. OSA -- Cable Reference File  
On 16mm roll film. Started 1969 and continuing. 170 filmed and destroyed (grows 25 cu. ft. a year.)
3. FMSAC -- Missile and Space Summary  
Intelligence Reports  
On 16mm roll film. Started in 1969 and continuing. 40 cu. ft. filmed and destroyed (grows 6 cu. ft. per year.)
4. ORD -- TSCC/USIB Library  
On microfiche and 16mm. Started in 1970 and continuing. 30 ft. filmed and destroyed.

Microfilm applications established in last six months in DDS&T:

1. OEL -- Cable References (Project related)  
On 16mm roll film. Tested and accepted; now filming 10 ft.
2. FMSAC -- Telemetry Anologs  
On 35mm film. Tested and accepted. Now filming 4 ft. Re-testing and re-considering use of 16mm film.
3. ORD -- R & D Project Files  
Will be on microfiche. Microfiche tested and accepted. Filming will begin on new camera when PSD gets it.

Other DDS&T applications for microfiche are being considered but will depend on the outcome and progress of the ORD application.
